

Missing number in subtraction

Find the missing number. It may be the number you start with or the number you take away.

1. $6 - \underline{3} = 3$

2. $18 - \underline{9} = 9$

3. $\underline{17} - 14 = 3$

4. $4 - \underline{2} = 2$

5. $11 - \underline{8} = 3$

6. $\underline{4} - 2 = 2$

7. $\underline{10} - 8 = 2$

8. $\underline{19} - 14 = 5$

9. $\underline{15} - 10 = 5$

10. $11 - \underline{2} = 9$

11. $\underline{18} - 16 = 2$

12. $7 - \underline{4} = 3$

13. $\underline{17} - 13 = 4$

14. $14 - \underline{4} = 10$

15. $\underline{18} - 8 = 10$

16. $\underline{15} - 12 = 3$

17. $19 - \underline{5} = 14$

18. $\underline{19} - 2 = 17$

19. $16 - \underline{8} = 8$

20. $\underline{17} - 7 = 10$

21. $\underline{18} - 14 = 4$

22. $20 - \underline{15} = 5$

23. $\underline{18} - 10 = 8$

24. $16 - \underline{4} = 12$
