

Missing number in subtraction

Find the missing number. It may be the number you start with or the number you take away.

1. $8 - \underline{4} = 4$

2. $\underline{20} - 9 = 11$

3. $4 - \underline{2} = 2$

4. $11 - \underline{6} = 5$

5. $\underline{19} - 9 = 10$

6. $\underline{17} - 9 = 8$

7. $\underline{9} - 4 = 5$

8. $\underline{20} - 15 = 5$

9. $\underline{20} - 12 = 8$

10. $5 - \underline{2} = 3$

11. $\underline{19} - 15 = 4$

12. $16 - \underline{3} = 13$

13. $\underline{16} - 8 = 8$

14. $\underline{20} - 11 = 9$

15. $\underline{20} - 4 = 16$

16. $5 - \underline{3} = 2$

17. $12 - \underline{4} = 8$

18. $16 - \underline{5} = 11$

19. $17 - \underline{6} = 11$

20. $14 - \underline{2} = 12$

21. $\underline{12} - 2 = 10$

22. $\underline{19} - 12 = 7$

23. $14 - \underline{4} = 10$

24. $\underline{14} - 11 = 3$
