

Subtraction equations — ANSWER KEY

Solve. Add to undo the subtraction.

1. $x - 3 = 3$

$x = \underline{\quad 6 \quad}$

2. $y - 6 = 24$

$y = \underline{\quad 30 \quad}$

3. $t - 10 = 9$

$t = \underline{\quad 19 \quad}$

4. $k - 7 = 20$

$k = \underline{\quad 27 \quad}$

5. $x - 19 = 22$

$x = \underline{\quad 41 \quad}$

6. $n - 14 = 21$

$n = \underline{\quad 35 \quad}$

7. $m - 17 = 12$

$m = \underline{\quad 29 \quad}$

8. $k - 15 = 17$

$k = \underline{\quad 32 \quad}$

9. $y - 2 = 28$

$y = \underline{\quad 30 \quad}$

10. $x - 12 = 15$

$x = \underline{\quad 27 \quad}$

11. $y - 13 = 14$

$y = \underline{\quad 27 \quad}$

12. $k - 6 = 18$

$k = \underline{\quad 24 \quad}$
