

Distance between points

Find each distance in units. Count across the axis, or use absolute value.

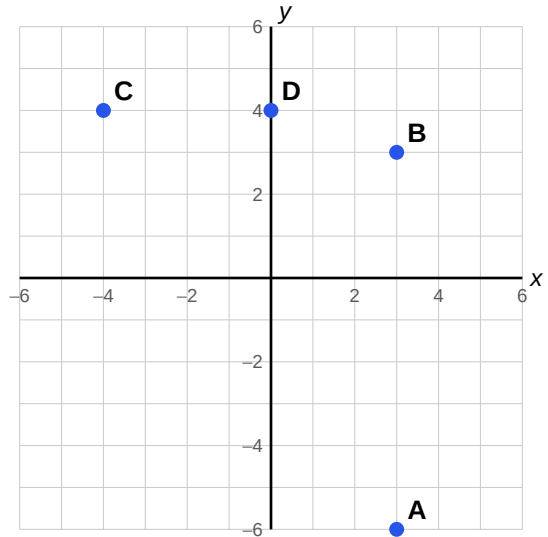

1.

$$AB = \underline{6}$$

$$CD = \underline{6}$$

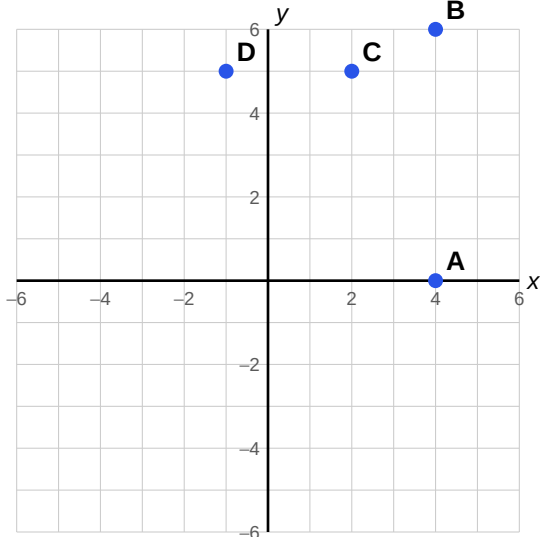

2.

$$AB = \underline{9}$$

$$CD = \underline{4}$$

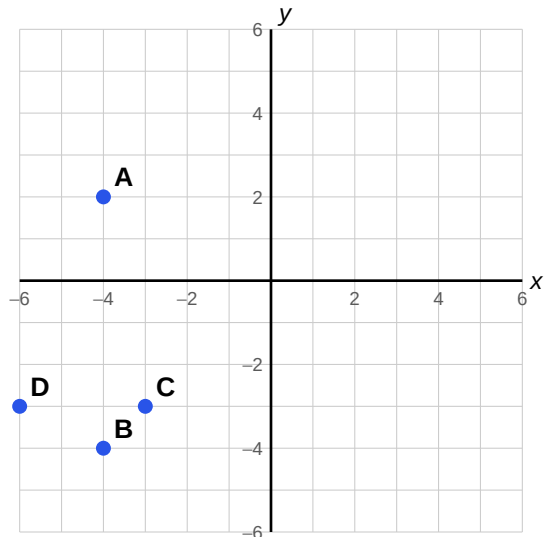

3.

$$AB = \underline{6}$$

$$CD = \underline{3}$$

4.

$$AB = \underline{6}$$

$$CD = \underline{3}$$
