

## Distance between points

Find each distance in units. Count across the axis, or use absolute value.

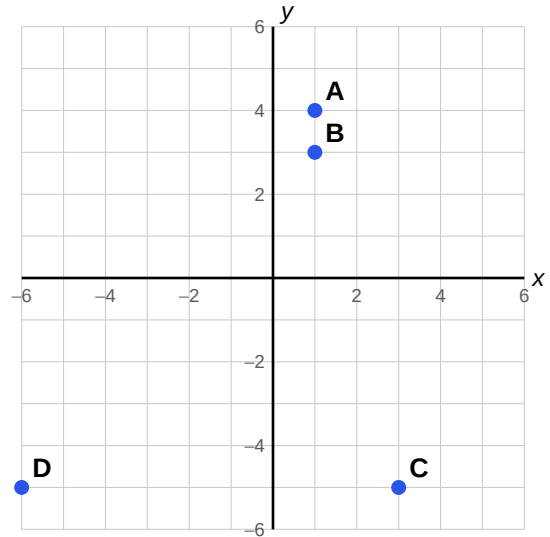

1.

$$AB = \underline{1}$$

$$CD = \underline{4}$$

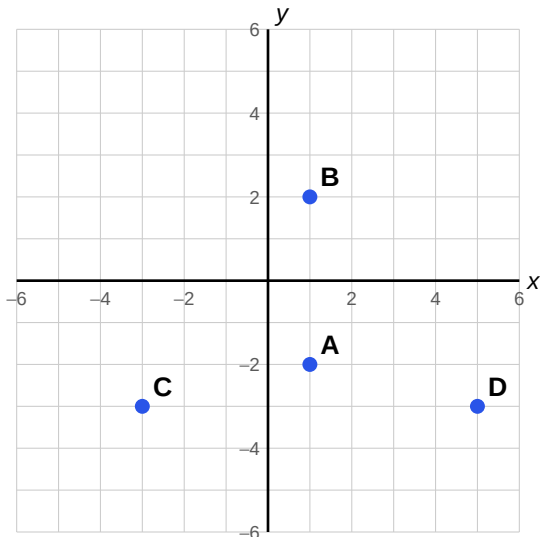

2.

$$AB = \underline{1}$$

$$CD = \underline{9}$$

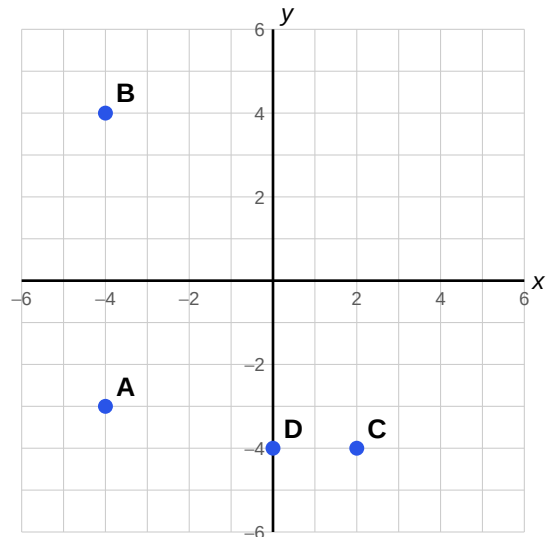

3.

$$AB = \underline{4}$$

$$CD = \underline{8}$$

4.

$$AB = \underline{7}$$

$$CD = \underline{2}$$
