

Slope from two points

Find the slope of the line through each pair of points.

1.

A(-5, 9) and B(-7, -1)

Slope = 5

2.

A(3, -3) and B(-6, 6)

Slope = -1

3.

A(-9, 3) and B(4, -9)

Slope = $-\frac{12}{13}$

4.

A(5, -1) and B(-2, 9)

Slope = $-\frac{10}{7}$
