

Slope from two points

Find the slope of the line through each pair of points.

1.

A(-2, 9) and B(8, -5)

Slope = $-\frac{7}{5}$

2.

A(2, 6) and B(9, -7)

Slope = $-\frac{13}{7}$

3.

A(-9, 6) and B(-1, 8)

Slope = $\frac{1}{4}$

4.

A(-2, -3) and B(6, 8)

Slope = $\frac{11}{8}$
